THE HIDDEN BEAUTY OF

SEEDS & FRUITS

THE SEED OF A STORY

As you move around the exhibition you may notice that some of the seeds take on personalities. Sometimes you can even imagine faces in amongst the shadows and shapes. If you read the captions you will find that many of the seeds have unusual journeys, uses or traits. These often cause the plant to have weird or fun common names.

Choose a seed from the exhibition and write a story about it below:

Will your seed be a hero or a villain or an object that helps one of your characters?

Don't forget to describe the features of the seed that have helped you choose its personality or role in your story.
